Introduction to HTML Programing

CIS 116

This is a prerequisite to several other courses!

This course counts as a programing course!

Hybrid Course!

Students gain practical experience creating multimedia Web pages with hypertext links. They will create tables and frames by using HTML. In addition, they will use cascading style sheets, work with dynamic content, and control mouse and keyboard events. Some programming with Java Script. Lecture two hours, computer lab three hours per week.

August 22nd and December 15th

Tuesday 7:00 pm to 8:40 pm
