Since completion of the Associate in Fine Arts in Art curriculum does not fulfill the requirements of the Illinois General Education Core Curriculum, students will need to complete the general education requirements of the institution to which they transfer. However, if students take an additional social/behavioral science course in addition to the one stated above, they will have met the Illinois Articulation Initiative General Education core curriculum. Students who know their specific field of study and which university they plan to transfer should follow the specific course recommendations of that university.
