

Planning to take ELEMENTARY ALGEBRA? *You have TWO options!*

Preferred by 4 out of 5 students familiar with both options!

**MORTON
MODULAR
MATH**
Success, one step at a time.

MAT 083
Elementary Algebra-Part I
(2 credit hours)

8 weeks

MAT 084
Elementary Algebra-Part II
(2 credit hours)

8 weeks

**TRADITIONAL
OPTION**

MAT 093
Intensive Elementary Algebra
(4 credit hours)

16 weeks

What are the two options?

Morton Modular Math lets you take Elementary Algebra as a sequence of 8-week modules instead of the traditional 16-week courses.

There are many ways in which the two options are similar.

- Both options prepare you for Intermediate Algebra and have the **same prerequisites**.
- Both options are the **same level**. The MAT 083/084 sequence covers the **same material** as MAT 093 and moves at the **same pace** (each eight-week module covers half the material of a traditional 16-week course).
- Don't be confused by the course numbers. **Lower course numbers mean shorter courses, not lower-level courses.**

But shorter courses offer several advantages over traditional courses!

- You will take two **short final exams** (one every eight weeks) instead of one long final exam at the end of the semester.
- You can **succeed sooner** by completing your first course in only eight weeks.
- If you are not able to complete a module, you only need to repeat 8 weeks – not 16 weeks – of material.
- With modules starting every 8 weeks, **there's no quicker path to college-credit math!**

Are there other reasons to consider Morton Modular Math?

- Homework and quizzes will be done online using MyMathLab, providing instant feedback and 24x7 online help.

I'm sold! How do I register for Morton Modular Math?

- Meet with an Academic Advisor or register through the Panther Portal.
- Be sure to register for both modules (MAT 083 and MAT 084), choosing modules that meet on the same schedule.
- If you pass MAT 083 during the first-half of the semester, you will continue with MAT 084 during the second-half of the semester.
- If you do not pass MAT 083 during the first-half of the semester, you can repeat the module during the second-half, schedule permitting. Modules start every 8 weeks.

For more information:

- Meet with an Academic Advisor.
- Contact Geoff Krader in the Mathematics Department: geoffrey.krader@morton.edu (708) 656-8000 x2292.
